Thank you so much for trying out!

Everyone who auditioned for this particular group sounded good.

It was extremely close this year. I'm very impressed with your voices and your courage.

If you're unsure of why you did not make it, **please** do **not** think it's because you can't sing. I heard a LOT of talented singers during this audition.

Many decisions were based on your voice type, your schedules, your ability to move with music, and your attitude, and not necessarily a lack of vocal ability. Don't stop trying out!
